The new preventive, it is said, resembles the lymph in vaccination, it being proposed by its use to inoculate the patient with the tubercle bacillus, which causes cancer, and this with various tonics, and the patient's general health, or causing the slightest pain. ## TELEGRAPHERS ON STRIKE.

The Western Union Telegraphers at St. Paul Quit Work.

ST. PAUL, Minn., Oct. 28.—With the exception of three operators and as many sub-chiefs the entire night force employed here by the Western Union telegraphers quit work at 8 o'clock Monday night. This is the first move on the part of members of the Brotherhood of Telegraphers to get even with the Western Union for the alleged systematic attempt to discredit the organization. Monday afternoon a committee of the St. Paul branch of the Brotherhood consisting of the six officers of the local branch of the organization who were discharged by the Western Union last Saturday went to Minneapolis to confer with Superintendent McMichael regarding the position the company is taking in the premises.

### Put on Their Coats and Left.

Superintendent McMichael positively refused to receive the men as representatives of the Brotherhood, but was willing to accord them an interview as individuals. The position taken by the superintendent gave the operators all the information they sought and they withdrew. Monday night work was passed around among the night men that they would be expected to quit work at 8 o'clock sharp. The clock in the operating-room was three minutes fast and as soon as it struck the men put on their coats and fled down stairs. The walkout was so unexpected that it dazed the night chief and his two assistants.

### Fifty-odd Operators in Sight.

Fifty-odd messages from various points in the northwest, chiefly to Twin City and Chicago newspapers, lay on the long desks uncompleted, while as many operators at the other ends of the wires were frantically inquiring the reason for such a sudden cessation of business. There were no operators in sight, or likely to be found by the dozens of messengers dispatched for members of the day force. Manager Hughes and Chief Operator McMichael were sent for. Meanwhile the night chief and his two assistants and three operators who were called in from newspaper offices attempted to unravel the snarl and handle the business that kept piling up before them.

### The St. Louis Telegraphers.

ST. LOUIS, Oct. 28.—At the Western Union telegraph office Tuesday morning it was rumored that four more Brotherhood men would be dismissed from the company's service, but up to a late hour in the afternoon no more men had been discharged. PORT WYATT, Ind., Oct. 28.—Manager Perry of the Western Union telegraph office in this city, received orders Monday from Division Superintendent Wright, of Cleveland, to discharge all operators who are members of the Brotherhood of Telegraphers. Unknown to the family there sprang up an attachment between the young lady and her father's coachman, William Elletts, that was soon fanned into a flame of love. Finding that all efforts to change her mind were useless, the mother was won over. Not so with the father and sister. Mr. Phelps and Miss Elletts have gone to New York to avoid being present at the ceremony, which is to occur in a few days. Miss Phelps is a social belle and one of the wealthiest young ladies in the state. Remaining payments will be made semi-annually by bonds duly authorized for that purpose. A story of hardship and suffering behind this case. Its victim came of old Knickerbocker stock, having been born in this city in 1845. One of his daring schemes, before he was 20 years old, resulted in the safe delivery in the blockaded ports of Hayti of a large quantity of guns and ammunition, which yielded such good returns that he undertook others similar in 1880 with a capital stock of \$200,000, which has all been paid in. The E. D. Clapp Manufacturing company, manufacturers of carriage hardware, are also involved, but are still running, the judgments against the latter only aggregating \$15,000. The company was organized in 1889 with a capital stock of \$200,000, which has all been paid in. The E. D. All regular ballots required 600,000 sheets of paper. This is the first lot that has so far progressed to the second printing. This is done before the names are printed on. Manager Kelso has had to train these girls almost individually in the work. The printers have also had to be carefully instructed.

### THE STANLEY-BARTTELOT MATTER.

Du Chailu Says the Insinuations Against Barttelot Made by Explorer Stanley Were Unjust—He Also Accuses Stanley of Being Jealous of Bonny and of Withholding Praise Due to Du Chailu.

NEW YORK, Oct. 28.—Paul B. Du Chailu, the famous African explorer, who since his arrival in America three weeks ago has passed a delightful time at the home of George W. Childs in Philadelphia, came to this city Monday to lecture on "The Ancient Home of the 'English Race' before the American Geographical society in Chickering hall Monday night. In an interview on the Stanley-Barttelot matter, he said:

### "I saw all of Mr. Stanley's Nautenances in London after their return from Africa, and I know from many of their utterances there was had blood between the leader and his men. It came out in many ways, but of course none of the men spoke openly. This feeling was first made public when Stanley wanted to influence the English Geographical society to prevent their giving a medal to Bonny. Stanley failed, however, and Bonny got the decoration."

### Will Tell a Different Story.

"The present controversy would bring out more unpleasant facts than people realize. Nearly all of Mr. Stanley's aids will write for publication what their agreement not to publish anything until six months after his book appears is at an end."

### "Are they capable of writing?"

"They can certainly talk," he replied, "and someone else can do the writing. Whatever Bonny writes will carry most weight, as he is the only white man that knows all about the last days of Barttelot and the horrors of the camp. His story would create a world-wide sensation. Published statements that Mr. Barttelot was shot by a chief, jealous of the white man's attention to the black's wife, is absurd. The blacks do not shoot for their women. On the contrary, they will give them to you with open hands. No black would think of killing a white man for such a trifling offense in Africa. Bonny will tell a different story from the above when he decides to speak on the subject and then readers for the first time will get the truth."

### Mr. Du Chailu, in referring to Mr. Stanley's book, said:

"It could not have been published at a more fortunate time for the writer. His glory is fresh and the eyes of the world are upon him. 'Do you know,' said he, with a twinkle in his eye, 'that in his last book Stanley never gave me credit for my discovery of the dwarfs in the Congo region and my assertion that in the depths of the unexplored forest the little men and women would be found in great numbers.'"

### In an interview with Ward says that in his "In Darkest Africa" Stanley takes too harsh a view of the raar guard, that suffered so much while doing their best. **THAT LETTER.**

Another letter has in some mysterious way, probably known to the republican postmaster of a hypocritical administration, found its way to The Rep office. This is a letter sent by J. P. Drennan, chairman of the Democratic Central committee, to Wash Smith of Mt. Zion. It notifies him that he has been assessed \$250 for campaign expenses. The letter left the Deatur post office all right. It never got to Wash Smith. It fell into the hands of some patriot who sent it to the republican central committee of the state, which committee in turn sent it to the central committee of the republican party in Macon county.

Here we have a case in which the man to whom a letter was addressed was never allowed to look at it. The letter was private and political in its nature, and just as soon as it fell into republican hands, its course was changed. When the republicans get through with the letter they may be good enough to forward it to Mr. Smith. There was a foolish notion that the privacy of first class mail matter was respected under the administration of John W. Wannamaker. People will now take notice that letters sent through the mails are subject to perusal by all the republican committees within 200 miles before it is ever thought that the man to whom the letter is directed that the man to whom the letter is directed may have some use for it. If a letter that you have been expecting is overdue and you can not account for the delay, you had better subscribe for some republican paper in the neighborhood, and in that you may find it set out in print some day. And if you can get a letter that you have been expecting by inquiring in the usual place for it, why strike up an acquaintance with the chairman of the republican central committee and ask him to let you see the letter as soon as his people get through with it. So much for the privacy of letters under this beautiful republican administration.

Now a few words about the contents of this last letter that was opened and read and published by republicans to whom it was not addressed. The Rep figures from the letter that the democrats of this county are collecting a campaign fund of \$1,250. We are free to say that the democrats will collect what they can, but we are sorry to remark that no such figure as the one set out by The Rep can be reached. We will have to get along with a very small part of that sum, and this in spite of the fact that every dollar mentioned may be needed to secure full fair play. The democratic central committee of Macon county would now like to have \$4,000 at its command. It would like to spend a good part of it in hunting down the man who tampered with the letter that was sent to Wash Smith. That single performance shows that a great many thousands are needed to uncover even a part of the republican rascality that is now at work in this community.

The democratic central committee wants what money it can get, and it will use the money in watching republican bootlickers and fine workers on election day. Gentlemen on the other side well know that we will not enter into a contest with them in the matter of purchasing votes. They have dollars where we have quarters, and the men on our side are not fools enough to measure a short purse against a long one. Do you want to know what the democrats intend to do with the money they may be able to collect? They will put it at the 28 polling places in Macon county a sufficient number of men to detect any republican bootlicker who may be using money to secure votes. At some of the places a half dozen or more men may be required; but whatever the number, its full quota will be there. And then the central committee will do its best to have a reserve fund to be used in prosecuting the men who prostitute the ballot on election day. And if there is a dollar left, a detective will be put on the track of the man who opened Wash Smith's letter.

Says The Rep in conclusion, "it behooves the people to keep diligent and perpetual watch upon that key on election day." We have no objection to this, we invite the fullest amount of inspection on that day. At the same time we ask you to look at the other fellows; and if you catch any candidate buying votes, we ask you to scratch him in your ballot. The democratic central committee has not a dollar to pay for a vote, nor for a hundred of them. The man who wants money for his vote had just

as well made up his mind to treat with some other set of candidates. The democratic party in Macon county has some money to be used at the close of this campaign, not more than one-fourth of what the republican party has, but the democrats will use every dollar of theirs in trying to secure fair play. And what money they have is a small amount with which to go up against a party that has a pull sufficient to let itself into the contents of private letters that may be going through the U. S. mails. But the democrats will do the best they can with what they have. They may not be able to unearth all the rascality of next Tuesday, but they will get some of the rogues.

And now will the fellow who has been singing about "The Letter that Never Came," have himself put on the republican central committee or get on The Rep staff and thus end his woes. He ought to find what he wants in that old murdered letter office on South Water.

CUTLUM is chasing himself around the state showing up a tin cup to the people who gather to hear his story. It is said he holds up the cup and announces that the new duty on the tin in it will increase the cost only one-half a cent. Then he asks in the name of patriotism, "who will object to paying that half-cent to build up another American industry?" Well, no man is rich enough to buy silver goblets will object. But every laboring man who earned all he could last year and still came out a few dollars behind his necessary expenses will object. The half-cent that you have been taking from him here and there, the one that you collect from him at every turn during the day, is what is making his lot a hard one.

There is an old saying that if you take care of the pennies, the pounds will take care of themselves. There is some truth in it. And the workmen are beginning to see that if they allow themselves to be robbed of their pennies, the manufacturers and trust beneficiaries will take care of their dollars. Where is the increase in wages that is to enable the laboring man to pay that extra half-cent on a tin cup? Perhaps some of our wealthy patriots who want office would be willing to advise the laboring man to take up with the cultivation of gold.

We hear some talk about manufacturers making "dishonest advances" in prices. This may all be true, but what enabled them to do so? Was it not the McKinley bill? You may set it down that a man will collect all he can for his wares; and when you pass a law that gives him a chance to collect 50 per cent more than the prices that rule in the world, you may be sure a way will be found to do the collecting. You say the price is dishonest. Why of course it is, but the fact is dishonesty is the price that is behind the price.

And we again rise for the purpose of asking the republican newspapers to print some circular from one of the manufacturers to his hands announcing a rise in wages. We have had columns of circulars from wholesalers and manufacturers to the retailers daily tell of a rise in prices to the consumers.

The Rep says there were some good democratic idees; but will never say as much for one who is running for an office. It would have no hesitation to inform you quietly that Charley Farwell was a much better soldier than John M. Palmer.

And now the John has gone out that collars are to be advanced 25 cents a dozen, which causes an exchange to remark that, "Truly the American consumer is getting it in the neck."

**Salvety Before the State Grange.**

The annual meeting of the State Grange will be held in Springfield in December, and Mr. E. A. Snively has accepted an invitation to deliver an address before the meeting of the body on the subject of "Legislation." In securing Mr. Snively to talk upon this question, the officers have acted wisely. Mr. Snively was compelled, at the early age of 15, to earn his own living, and the experience of himself in the office and industry has led him to himself through all the various departments. Knowing so well what it is to work so hard, his sympathies have naturally all been with the laboring people whether in the shop, cane or on the farm. The old files of the Equivocal, which he long edited, show that his strongest and sturdiest blows were in defense of the laboring classes. He spent one session in the legislature as a correspondent, and for years has been a careful student of the methods by which legislation is enacted and prohibited, and understands the subject as fully as any man in the state. He will speak right out without any reserve, and he will call things by their right names. That he will tear the mask of hypocrisy from the face of the denegators and give the farmers many useful pointers goes without saying, to those who are acquainted with his plain, open and vigorous style of talking and writing. Mr. Snively has aided by his work and influence in the measure of every measure that has passed either branch of the legislature since 1871 in the interest of the people, and has mourned with them the defeat of legislation which was intended for the masses. The State grange has a rare treat in store for itself, and we predict that his address will be voted one of the ablest, most useful and instructive ever delivered before that body.

**PNEUMONIA.**  
It is the general verdict that when pneumonia seizes upon a person in the decline of life it is almost always fatal. The marked increase in the number of deaths from this malady of late years has made its attacks greatly dreaded. Reid's German Cough and Kidney Cure is a specific for it, and will cure the worst case if taken freely. John F. Gove is a respected citizen of Peoria, living in Cedar Park. At the age of 76 years he was taken with a severe cold, nothing seemed to do him any good and his cold steadily deepened until his cough could be heard all over the block. It had the hoarse rattle so ominous of evil, and there was the tightness across the chest and the usual symptoms of pneumonia. The doctors came but shook their heads, saying that at his age the case was well nigh hopeless. He could not lie down a moment; a hoarse and tremendous cough set in at once whenever he attempted to do so. In this emergency a friend suggested Reid's German Cough and Kidney Cure. Mr. Gove tried it. His condition was so far gone that he could not eat and so he fairly lived upon this medicine. As it is nutritious in itself and contains no poison, he was able to do this, not only without deleterious effect, but with positive benefit. The result was that in a week he began to mend, and he is now hale and hearty. He had pleurisy for some three years, but on his recovery from his cough he found that his pleurisy had left him too. Considering Mr. Gove's great age, this is one of the most remarkable cures that have been effected by Reid's German Cough and Kidney Cure.

## HERE WE ARE, CLEAR THE WAY.

WE ARE LOADED FOR BEAR.

DEAR FRIENDS:—We have been silent for several days, which brought a premature smile to the faces of our competitors. But they will know this morning that there was mischief brewing all the time. They will read over this list of prices and then go out and have a few disastrous rounds with the despair that will hug them closer and blacker than a shadow.

But friends their grief will be your joy. They will be sad unto jammies because they know you will read of the bargains that are offered here—and that will be the end of their few sales and big profits jig.

## Here is What WE Can do For You.

600 Pairs Ladies' Longola Button shoes in Opera and Common Sense. Our former price has been \$3.00; we are going to sell them at \$2.00. Other dealers here can't buy them at what we are selling them for. If you don't get a pair you will regret it.

500 Pairs Ladies' Longola Button shoe at \$1.35; our price was \$2.25. They will be sold at this great sale at the above price and they are dandies. Our competitors may howl at such a slaughter but we have the goods and are going to sell if prices will do it.

300 Men's Real Congress shoes all solid and are worth \$2.00; considering the great advance in prices we are going to run them out at \$1.35.

We have 150 Pairs Men's Calf Congress shoes hand welt and they are dandies and you can't approach them at near the price. We are going to sell at \$2.50. Just think, of a Men's hand sewed shoe being sold at such a price.

If this does not satisfy you that we UNDERSELL any other house in the business come to our store and see the thousand other startling evidences that rest upon the shelves. The tariff may affect small concerns, but it stands out of the way for such a business as we do. Tariff or no tariff, we break the record every day in the matter of getting up bargains for our patrons.

### THE SEWERS.

About half the work on the sewers under contract is completed already, with a full month or more of work yet to be done on the first season. That is bustling. Of course half the total feet of sewers is not completed, but half the money is expended. The work was begun on the big end, and the little end will be easy to finish.

The Union street sewer is now finished from Decatur street to Cerro Gordo street. The turn is just being made into Cerro Gordo. Then the dimension will be reduced from 32x48 inches to 24x36.

The Broadway sewer is just turning from Broadway into Main street. Its size will be 42x60 till Warren street is reached, when it will be reduced to 32x48. Work has been abandoned on the eastern branch, which will not be finished until the main sewer is completed.

The city will connect the Broadway sewer with the old main sewer from the river to a point north of the oil mill. It is quite probable that that work will be done yet this season.

Work has already begun on the lateral between William and North streets. It is a small job and will soon be finished.

### Great Progress.

The National Democrat which was established in Washington one year ago by Edmund Hudson, with the indorsement of many of the great leaders of the party, has entered upon its second year with a circulation of 40,000 copies each week. This is perhaps the largest circulation ever attained by a weekly newspaper during the first year of its existence. The National Democrat occupies a field of its own, and one that too long remained unfilled. It gives a complete record of political information, including the most important speeches that are delivered by democratic leaders in congress and on the stump. It is rendering the party an important service, and should be read by all who wish to keep fully informed in regard to public affairs and who mean to defeat the wicked scheme of republican leaders to secure permanent control of the government, in spite of the fact that they are, and must remain, the minority party in this country.

### The Shoe Factory.

Ever since the shoe factory was put in operation its success has been an assured fact. The factory has been and is now on a boom. It is away behind on its orders, and is pushing the work as fast as possible, but hands are not plentiful enough and the work will drag. They are always ready to take more good hands. The present force of more than a hundred is also working until 9 o'clock every night now, and Al Treasie, one of the department foremen, went to St. Louis yesterday afternoon to see about getting more expert hands. Within six months from now they are going to make as radical and important changes in the business. The manufacture of the medium and cheap grades of shoes will be abandoned and the entire force of the factory will be devoted to the finest grades of shoes. This will make additional machinery necessary and an increased force of expert workmen. The business prospects are highly favorable.

### Mathews—Gassaway.

Albert Clarence Mathews and Miss Blanche Gassaway were united in marriage at 8:30 last night at the home of the bride's parents, Mr. and Mrs. William H. Gassaway, 348 North Church street. The ceremony was performed by Rev. W. H. Penhalligan.

The bride was attired in a dress of white serge, and the groom wore the usual black. The parlors were decorated for the occasion. There were present only the relatives and intimate friends of the contracting parties. A wedding supper was served after the ceremony. Mr. Mathews is well known as the bookkeeper of the Commonwealth Mutual Fire Insurance company and the bride has been a successful teacher in the public schools. They have taken apartments in the Curtis house on North Church street.

### The Passing Show.

"The Wife's" coming next Thursday is no doubt looked forward to by the patrons of the better class of attractions with much pleasure. Daniel Frohman's company, presenting this charming society comedy have met with marked favor. The play is thoroughly American in theme, which is really American, and which, instead of displacing the venerated immortality of Europe, deals the wholesome home life of our own country, and both fully up to the standard of artistic excellence claimed for them. It is by the encouragement of genuine work of this class that our city and the whole country may obtain relief in some measure from the dry-rut which seriously threatens to destroy all healthy and intelligent progress in the domestic drama.

### Outside Mail.

Mail Transfer Agent Dempsey, who is filling William Dodson's place at the depot, is of the opinion that nearly as many letters are left with him to mail on the night trains as are sent down from the postoffice. One night last week he cancelled at the depot 581 letters between 8 and 10 o'clock at night. He handles a great deal of mail outside the pouches. The runners of the three hotels take mail from the hotel offices about 9:30 in the evening. This practice was started for the convenience of guests. The business men around town, as they learned of it, have got in the habit of leaving mail at the hotels until they handle about as much as the postoffice. One firm alone leaves from 30 to 50 letters at the St. Nicholas every night.

### Advertised Letters.

Following is a list of advertised letters remaining in the Decatur postoffice uncalled for Oct. 23, 1890:

### Canning Apples.

Bloomington Panograph.  
At the canning establishment 50 persons are now engaged in canning apples, and after to-day 100 will be at work there. They are principally women and children, and earn good wages. The factory has been working only three days on apples, and is just getting a good start. Commencing to-day about 500 bushels will be canned here a day. Three thousand barrels of apples are now on hand to be canned, and the managers are now considering an offer to can 5,000 barrels additional. The apples are shipped here from Missouri, and after being put up in gallon cans are sent to the wholesale grocers and other parties all carefully saved and dried, after which they are sent east to a jelly factory.

### The Play of Plays.

The attraction at the opera house Saturday night will be a play that has made for its author and managers more money than any other of modern times. It is one out of the usual order of dramatic conceptions, and is exempt from the stiffness and stogy effect that usually characterizes dramatic productions. Everything is acted out as naturally as if the observer were witnessing an occurrence in real life. It is the justly celebrated "Little Lord Fauntleroy," than which no play of recent years has made a more pronounced or lasting success.

### To The Readers

#### And Especially the LADY READERS OF THE REVIEW.

The manufacturers of "TERRPURE" Baking Powder in making their bow to the public desire to frankly state a few important facts:

First—This powder has been adopted and indorsed by the Wholesale Grocers' National association as the best pure cream of tartar Baking Powder made.

Second—We make no extravagant claims or assertions; the quality of the powder is expressed by the name.

Third—We have no words of condemnation for other powders; there are some powders in the market which are very good, there are far more that are poisonous; we know ours to be pure and of the highest class.

Fourth—Realizing that results alone can prove the merit of any article, we believe that "TERRPURE" Baking Powder, which is an advancement in modern discovery and science, will furnish results for the household never before accomplished, thus proving helpful to the health and "popular with the ladies." Next to wealth, comfort is what every one is after. One way to get wealth is look out for economy. Therefore when economy and comfort can be gotten together the average man should be supremely happy. A sure way to get this combination is to burn Riverton coal. It has all the good qualities of the best coal, and none of the bad ones of any grade. E. L. Martin sells it. Telephone 433, or 328 North North Main.

### Prohibition Ticket.

The prohibitionists have a full ticket in the field, and their tickets will be at all voting places on election day. Their local candidates are:

For Congress—W. C. Outten.  
For State Senate—A. Quisenberry.  
For Representative—John Van Gundy.  
For County Judge—Thomas A. Pritchett.  
For Sheriff—James A. Wilson.  
For County Clerk—George Conrad.  
For County Treasurer—Joseph M. Dawson.

For Superintendent of Schools—Mary C. Gregory.

A. Stevens was at Peoria yesterday. Engineer George Hediger, of the Washburn, is taking a layoff. B. C. Starbuck, superintendent of the P. & E., was in the city yesterday. The baggage room at the depot is being treated to a new floor. It needed it badly enough. Arthur Hall, a fireman on the I. C., from Clinton, was in the city yesterday visiting his brother. R. L. Jenkins, of Amboy, boss carpenter of the I. C. was in Decatur yesterday repairing the turntable. The Western Union Telegraph company has opened war upon the Brotherhood of Telegraph Operators all over the country, and though there is an evident attempt to keep the matter secret the gleam of the knife is apparent at St. Louis. Yesterday four men were discharged and 11 more resigned. The whole night force was off last night and the day force was ordered to stay on until it was relieved.

### Weddings that Will Occur.

John Stough, the letter carrier, and Miss Dora Seneur, will be married to night at the bride's house on East Orchard street.

The marriage of Miss Priscilla Morris to W. W. Glessner, will occur Thursday, at the home of Mr. and Mrs. Whitehead, on North Church street.

The banns of Miss Katie Welsh and William Dunn were published at St. Patrick's Catholic church last Sunday. The wedding will take place week after next.

Invitations are out for the marriage of Ethel M. Robinson, eldest daughter of Mr. and Mrs. C. C. Robinson, to A. D. Risley, on Nov. 5, at 8 o'clock, at the residence, 404 West Cerro Gordo street.

This morning at 10 o'clock at the lady's home, 323 East Condit street, Miss Cora Walsley will be married to Frank Williams.

### Peg Woffington's Epitaph.

One of the gentlemen who was a member of Rose Coghlan's company, was somewhat started in a restaurant after the theatre last night, to hear a stirring remark made about one of the ladies of the company, by a young man who did not know that the actor was among his hearers. The actor promptly resented it and walked outside for the careless speaker, but was pacified by another of those in the restaurant. It is to say the least, unwise to speak slightly of any one among strangers, for it can never be known until afterwards how near friends may be to resent a fanciful insult. The epitaph spoken by Peg Woffington last night was a gentle reminder that actors are but people and that behind the masks are real faces, and their feelings are not different from those of persons in other professions.

### Mr. T. Henry French.

"What's in a name?"

Much, when that name is T. Henry French.

The name is the synonym for all that is perfect in the way of theatrical productions. Mr. French is part owner and manager of the Madison Square Garden, New York, the Broadway theater in the same city, as well as the Grand Opera House. He is one of the best known and shrewdest theatrical managers in the world, and has been identified with more notable and lasting successes than any other in the country. He is the junior partner of the famous dramatic publishing firm of Samuel French & Son, and is known the country over from his connection with such important works as "The Silver King," "Hoodman Blind," "My Jack," "Master and Man," and "Little Lord Fauntleroy," which play, by the way, will be the attraction at the Grand Opera House Saturday night.

### A False Alarm.

A family on West Prairie avenue a few weeks ago spent some time on the front porch when they would rather have been in the house. The ladies were alone in the house, the man of the family being out of the city. Sometime during the evening one of the young ladies thought she heard someone come in the back door. She heard the hinges creak and the steps on the floor, and so worked on the feelings of the others that they all believed it and went out on the porch to see what was the matter. There they sat in fear and alarm to go to the house, until one of the policemen happened by, and then they called him. He went through the house and found no one, and so reassured they resumed their residence in the house instead of out on the porch.

### Two Police Notes.

George L. Dalmann was arrested for drunkenness yesterday and appeared before Justice Hammer. He paid his fine of \$5 and costs without a murmur, and with true southern hospitality invited Justice, police and spectators all to call on him whenever they came to Baltimore, and he would entertain them in the best style.

Justice Hammer issued a state warrant yesterday for the arrest of George Bunch, of Assumption. The warrant was issued on complaint of Gross & Drysdale, the restaurant keepers on South Main street. He had beaten them out of a board bill of \$1.75, and the present law on that subject is not as lenient with offenders as was the old one.

### A New Washburn Time Card.

H. F. Houghton and A. H. Lander, of Decatur; H. W. Ballou, of Forrest; W. Cotter, of Litchfield, and F. C. Palmer, of Springfield, Washburn trainmasters, were at the Leland this week, making out a new time card for the road. No changes will be made on any of the passenger trains of any division, the only changes being on local freight trains.

### A Hot Campaign.

MONTICELLO, Ill., Oct. 27.—Hon. Owen Scott, democratic candidate for congress, opened the campaign in Platt county today. He delivered an address at Deland this afternoon and at Cisco to night. Hon. J. H. Rowell, the present member from this district, will begin his canvass of the county at Monticello to night. These two candidates for congress will deliver two addresses each day in Platt county until the close of the campaign.

### Cleaning Up.

A force of men and teams is at work cleaning up the streets through which sewers have been built. Surplus earth is taken away, gutters cleaned and holes filled.

### Will Ship Ice.

An elevator is being put up at the ice factory to aid in loading cars. The factory is getting ready to ship considerable ice to neighboring towns, filling up the ice houses there during the winter.

### Household Goods for Sale.

cheap, at V. E. Parks's store, North Main street. Call between 9 and 10 in morning.

Business is still good at the hotels. Rev. S. P. Hoy has moved from 720 North Main street to 209 Bradford street. The infant daughter of Mr. and Mrs. James Hoots, of Oakley, was buried last Sunday. The new water works at Sullivan are completed now, and are reported a perfect success. The Rose Coghlan company leaves this morning for Lafayette, Ind., where they play to night. There have been few weddings of late, but our young people appear now to be making up for lost time. W. M. Harsha, of Chicago, who came to attend the meeting of the Medical society, will be here two or three days. The republicans will have a meeting at the court house to night. A colored man from Chicago will be the speaker. Joseph Willman, of Litchfield, is in the city to open a grain commission office in the front room over B. Stine's clothing store. Mary Olive Dunkle, the daughter of Mr. and Mrs. Elias Dunkle, was buried yesterday afternoon from their home in East Park Boulevards. J. E. Dearborn, of Mattoon, the poultry buyer, was here yesterday making arrangements to begin dressing poultry at his Decatur establishment. The Christian Workers will have prayer meeting on Friday evening at the residence of W. E. Moonies, third door east of Warren street on Herkimer. A C. Wyckoff, of Decatur, and his sister, Mrs. Mary S. Fowles, of Springfield, left yesterday for Crawfordsville, Ind., where there will visit their brother. Carl Evans, of Cerro Gordo, has accepted a position as traveling salesman of the Springfield Paper company at Springfield, an institution that is prospering. Up to last night M. G. Patterson had not returned to Decatur. Inquiry at his home, or of his mother, failed to gain any information as to when he would be here. Sangamon county has a Farmers' Protective association also. It caused the arrest of two Springfield men who were hunting on the lands of a farmer last Sunday, and they were each fined. A man, an ugly looking deformed man, was at the depot last night for two or three hours. Some depraved person has been exhibiting the thing in Lovington, Sullivan and neighboring towns. Though so many approaching marriages have been announced, there are yet others to be spoken about only sub rosa. Some are quite important, particularly in the case of a young man at which many maidens have cast soft glances. Rose Coghlan and maid are registered at the St. Nicholas. Miss Coghlan has one of the best rooms in the house, and the maid has one adjoining almost as good. The mistress has her meals served in her room, and has the best of everything that is to be had. Mrs. Lydia Connor, a former Decatur young lady, was married on the 15th of October to Dr. Edward L. Shattuck, a dentist of London, Eng. The wedding occurred at Eldorado, Kan. The young people have already left for London, where they will reside. A plan drunk stepped on himself yesterday afternoon at the corner of East Main and Water street and fell down in a double bow knot. Oliver Brockway happened along about that time, untied the knot and walked the victim off to the station house. Crawford, the murderer, Dr. Helt thinks, is about well. He would be entirely well if he took any interest in improving his condition. He hopes in his cell all day and will take no exercise or make the slightest effort to improve. He still speaks in a whisper and says but little. Miss McHenry, who plays here next week in "Chain Lightning," will appear in five distinct roles: Wild Rose, known as "Chain Lightning," Franklin Gretchen, a German immigrant, Charley Reeder, a Mexican sailor; Carlotta, an Italian street singer, and the heiress of the Golconda mine. The civil suit of E. B. Allen & Bro. against W. A. Cochran, of Macon, to recover the price of a harvester purchased of them, was argued all day yesterday in Justice Curtis' court by Attorney I. R. Mills for the plaintiff and I. A. Buckingham for the defendant. The decision of the justice was reserved. The water committee of the city council thought some time ago it would have to build a new dam and began to make arrangements to that effect. As a temporary expedient a lot of gunny sacks filled with clay were sunk above the dam. That stopped the leaks and the dam is now in shape to last for years. About all the farm land in Macon county now is protected by signs warning trespassers away, under penalty of the law. Some of the farmers even threaten to shoot anybody on their ground. The Decatur sportsman thinks it is hard that he has to go down to Arkansas to lawlessly burn up all the powder he can afford to buy. The first annual convention of the secret sessions branch of the Farmers' Alliance was held in Springfield yesterday, commencing at 10 o'clock in the morning. This alliance was organized six months ago in Morrisonville, and has 260 lodges in the state with a membership of between 10,000 and 12,000. The open session alliance has 130 lodges. Rev. S. P. Hoy, general agent for the Northwestern Mutual Life Insurance company had yesterday a draft for \$5,000. It was received from his company for payment to the family of W. W. Anderson, who died at Taylorville two months ago. The young man was a married man. Mr. Hoy has sent in applications this week for \$11,000 of insurance. A good many people wondered what the frightful noise was that drew every one's attention during the first act of "Peg Woffington" at the opera house last night. It was caused by the breaking of one of the seats in the rear of the room when a lady started to sit down on it. The seat broke off and she sat down on the floor and then got up in haste enough to make a record. The same seat has been broken and fixed twice before, and one should have an accident insurance ticket before risking it. The police last night saw a man with a chicken under his arm. Watch was kept and the fellow soon sold the chicken to a restaurant keeper. Supposing that the chicken was stolen, the police arrested the fellow. Investigation disclosed the fact that the chicken had come from the man's own home, where it had been raised by his family. He has lost one situation after another lately on account of drunkenness, and has lately been selling everything about his home that he could carry off. A few chickens was about all they had to go through the winter with.

### The Ivesdale Lunatic.

It was learned yesterday by a REVIEWER that the crazy man, James Hackett, who was placed in jail here Saturday without any apparent authority, was brought by Marshal V. P. Meredith of Ivesdale, and W. Abrams who came to assist him. The man was found suffering from a prolonged spree, in Colfax township, Platt county. He claimed to live in Decatur, said that he had worked in the butcher shop of Jacob Bieuz, and said he lived at 21 East Eldorado street. There is of course no such number, as the numbers begin with 100. He also kept calling to his daughter for Mary, saying that if she wanted to get a divorce he would not resist it. The Ivesdale people thought it was all right to bring him and leave him here as they did. They say, however, that they have since found that he is a resident of Champaign county and they are willing to take him there if Macon county does not want him here. If he is sent back to Ivesdale they will take charge of him.

### Death of Mrs. Imboden.

Mrs. Annie Laura Imboden, daughter of R. J. Roberts, died last night at 10:30, of consumption. Her disease was the result of the effects of the grip. She was aged 28 years, 7 months and 20 days, and has lived here all her life, having been born in Decatur. Her husband and one child, a daughter 9 years of age, survive her.

### HE GOT A FIGHT.

A young man from Cisco came to Cerro Gordo Sunday and publicly announced that he was here for a fight. It did not take him but a few moments to find a man who was willing to hammer him, and after he had been dropped to the ground a few times he announced that he had had enough and was let go on his way in peace, but he took with him two black eyes. The citizens made up and paid the fine of the young man from here and the Cisco man as yet has not been captured.

### NO SCARE.

The "Incendiary scare" that the Herald-Dispatch and other papers told about being here Saturday evening, was of short duration and small dimensions, for hardly had the blaze been extinguished before it was found that the fire had caught from a spark or burning piece of paper, which the high wind had carried from where a pile of trash had been burning in the afternoon. The idea that the fire was of incendiary origin was dispelled within an hour, and no excitement was caused.

So far as Miss Coghlan herself goes, it does not make much difference what the play is. She could and would make anything not only interesting, but delightful. Last night was no exception. The audience, in size, was fair, but there were many vacant seats and there should not have been one. Such performances are not often seen in Decatur, or anywhere, for that matter. Miss Coghlan was charming, showing the most consummate skill as an actor, with a womanly grace that was pleasing. The play, "Peg Woffington," was well suited to her, yet called for many able people beside in the cast. These were not lacking, and helped greatly to make an even and finished performance. The work of Beatrice Morland, as Mable Vane, of Thomas Whittle as Triplet, and of John T. Sullivan as Sir Charles Pomeroy, was excellent, and suited to the demands of the characters. The costumes were fine.

### The Ivesdale Lunatic.

It was learned yesterday by a REVIEWER that the crazy man, James Hackett, who was placed in jail here Saturday without any apparent authority, was brought by Marshal V. P. Meredith of Ivesdale, and W. Abrams who came to assist him. The man was found suffering from a prolonged spree, in Colfax township, Platt county. He claimed to live in Decatur, said that he had worked in the butcher shop of Jacob Bieuz, and said he lived at 21 East Eldorado street. There is of course no such number, as the numbers begin with 100. He also kept calling to his daughter for Mary, saying that if she wanted to get a divorce he would not resist it. The Ivesdale people thought it was all right to bring him and leave him here as they did. They say, however, that they have since found that he is a resident of Champaign county and they are willing to take him there if Macon county does not want him here. If he is sent back to Ivesdale they will take charge of him.
